

THE INNOVATOR IN HELICOPTER APPLICATION EQUIPMENT

2600-475 Versapplier

For Cargo Hook Equipped Helicopters capable of 5055 lb. External Loads

System Components

- **Hopper:** Durable polypropylene construction
- **Frame and Hardware:** Powder-coated aluminum support structure with stainless steel hardware.
- **Boom Assembly:** 2" High-Flow aluminum booms.
- **Cyclic Control:** Allows pilot control of pump, boom valve, and operation of diesel engine. Remote-Control operations from inside helicopter.
- **Boom Valves:** 2" Electric motor-driven.
- **Power Supply:** Electric start Yanmar 6.4 HP diesel engine.
- **Pump:** Cast-iron 3" High Output Banjo Pump.

Specifications

- **Net Weight:** 775 lbs.
- **Gross Weight:** 5055 lbs.
- **System Capacity:** 475 gallons
- **Standard Power:** 6.4 HP diesel
- **Optional Power:** 12VDC
- **Pump Capacity:** 300 GPM
- **Boom Span:** 32 feet
- **Spray Width:** 32-100 feet
- **Nozzle Holes(3/4"):** 17 total
- **Cable Configuration:** 30'
